HOW TO USE THIS CHART

To determine where a placarded car can be placed in a freight or mixed train follow these steps:

- Determine the type of placard that is applied to the car.
- Refer to column 2 on chart and locate same placard wording.
- Follow horizontally across chart and note which vertical column applies.
- The symbol "X" indicates wording at top that applies.
- See footnotes for explanation of reference marks.

1	2	3

**MAINTENANCE OF WAY
CONDITIONAL STOP**

(Form Y Train Order)

The following forms of oral authorization by the Foreman and acknowledgment of understanding by the engineer are to be used to permit trains to pass a red flag without stopping within the limits of a Form Y train order.

Foreman will state: "Burlington Northern Railway Foreman calling Extra 232 East about Order No. (Form Y Train Order No.)"

Engineer must respond, identifying his train as: "This is Burlington Northern engineer, Extra 232 East."

When engineer has answered as above, the foreman will state: "Extra 232 East may pass red signal at (Location) without stopping."

The foreman may also authorize a different speed from that shown in the Form Y train order by adding to his instructions: "Proceed at _____ MPH," or "Proceed at normal speed."

The engineer must repeat back to the foreman the instructions that are given him.
